## *Who Is Arya Engineering?*

Arya Engineering & Infra India Pvt. Ltd. is a India Incorporated company and locally owned. The company offers Engineering Construction and Construction Project management.

Arya Engineering & Infra India Pvt. Ltd. is dedicated to organizations or Individuals seeking construction services.

## *We provide engineering construction services*

We provide comprehensive engineering and construction services to government bodies, infrastructure development authorities, urban municipalities, renewable energy sectors, and commercial developers. Our work spans across roadways, bridges, solar energy installations, ITMS solutions, and large-scale earthworks.

Our areas of expertise include—but are not limited to—civil construction, structural engineering, infrastructure development, solar power system implementation, and traffic management system integration.

## *We are committed to providing the best possible construction expertise & service to ensure cost effective and successful*

We work closely with our clients to accurately interpret their dreams/visions in drawings and bring them to the desired reality through construction solutions to meet their needs; We communicate with our clients throughout the construction process to keep them informed of progress and to ensure that our project keeps on schedule and within budget.

*We  
Believe  
in and  
Promote  
Quality  
Delivery*

## Our Vision

A regional market leader in provision of civil engineering and building construction services

## Our Mission

We aim to be a world class engineering Construction Company providing efficient affordable, sustainable, cost effective services of highest level of quality.

## Our Values

We believe in maintaining the highest standard of professionalism, integrity, creativity, positive attitude, delivery that meets and surpass expectations while offering prompt and lasting solutions that stand the test of time.

# Renewable Energy & Solar Solutions

**Our Services**

We provide end-to-end solar EPC (Engineering, Procurement & Construction) services to support clean energy adoption across industrial, commercial, and government sectors.

## Project Integration with Civil Works

Civil and electrical groundwork, fencing, control rooms, and panel structure erection.

## Operation & Maintenance (O&M)

Regular inspections, performance monitoring, and fault diagnosis for optimal plant uptime.

## Civil Engineering Structures and Roads Construction

Arya Engineering & Infra India Pvt. Ltd offers a wide range of civil and structural engineering construction ranging from steel structures erections, reinforced concrete structures and road construction in gravel, paving blocks, concrete, bitumen roads and associated drainage structures.

# Our Capacity

*consists of top of the range equipment and machinery, including Earth movers and Transport Equipment, Reinforced Concrete Equipment, and Light weight Machinery*

*Arya Engineering & Infra India Pvt. Ltd. offers a wide engineering and construction services*

- **Road Construction – National, State & Rural Roads**
- **Bridge Construction – RCC Bridges, Flyovers, Culverts**
- **Commercial Infrastructure – Industrial sheds, Complexes**
- **ITMS (Intelligent Traffic Management Systems) – Installation & integration**
- **Advanced Traffic Management Systems (ATMS) - network designing, planning, and system integration**
- **Solar Energy Projects – Installation & Maintenance**
- **Earthworks –**
  - **Excavation**
  - **Land Leveling**
  - **Foundation Work**
  - **Backfilling**
  - **Site Clearance**
  - **Mining**

*Our in-house fleet of modern construction machinery ensures efficiency, safety, and speed across all project types*

- **Excavators (Pokland)**
  - **JCB Backhoe Loaders**
  - **Trenchers**
  - **Diggers**
  - **Piling Equipment**
  - **Earth Movers**
  - **Hydra Cranes**
- **Cranes (Mobile & Tower)**
  - **Concrete Batch Plant**
  - **Ajax Self-loading Concrete Mixers**
  - **Concrete Vibrators**
  - **Dumpers & Tippers**
  - **Auto Level, Dumpy Level, etc**
  - **Heavy Duty Equipment , etc.**

*"Your vision, our foundation — together we build tomorrow."*

**Why Choose Us**

# ***Our Competitive Edge***

## **20+ Years of Proven Experience**

Delivering complex civil and infrastructure projects since 2002 with consistency and expertise.

## **Government & Private Sector Excellence**

Successfully executed projects for both public and private sector clients across diverse domains.

## **In-House Modern Machinery Fleet**

A trusted name across Wardha, Nagpur, Yavatmal, and surrounding regions. Full control over project execution

## **Skilled Workforce & Expert Engineers**

A dedicated team of qualified engineers, technicians, and on-ground personnel.

**We Build Tomorrow**

# Shri. Pramod Marotrao Brahmankar

I am **Pramod Marotrao Brahmankar**, the proud founder and director of **Arya Engineering & Infra India Pvt. Ltd.**, a company I started in the year **2002** with one clear mission: to transform the infrastructure landscape of Maharashtra and contribute meaningfully to India's development.

Hailing from a small town in **Pulgaon, Maharashtra**, I have always believed in **honest work, smart planning, and building with purpose**. What began as a modest civil contracting unit has today grown into a multi-faceted infrastructure company with a strong presence across **roads, bridges, commercial construction, solar energy, earthworks, and intelligent traffic systems (ITMS)**.

Over the years, my focus has always been on **adopting modern technology, building a skilled workforce, and ensuring quality, safety, and timely delivery** in every project we execute. Whether it's a rural road or a solar panel installation, my goal remains the same: to deliver excellence and build trust.

I have personally overseen the procurement and deployment of our powerful fleet of machinery— **Excavators & Loaders, Soil Compactors, Paver finishers, Hydra, Cranes, RMC, and more**—which form the backbone of our efficiency on-site. Under my leadership, the company has completed numerous government and private projects with distinction.

As we expand our footprint into **renewable energy and smart infrastructure**, I remain committed to our company's motto:  
"We Build Tomorrow."
